

10g Single-Fiber Optic Module Model

AI Overview

10G single-fiber optic modules (SFP+) enable 10 Gigabit Ethernet connections over a single strand of fiber, often requiring paired modules for bidirectional communication.

Key Features

- Form Factor:** SFP+ (Small Form-factor Pluggable Plus), hot-swappable for easy installation without powering down switches or devices.
- Fiber Type:** Typically single-mode fiber (SMF) for long-distance transmission, with duplex LC UPC connectors.
- Transmission Distance:** Standard single-mode modules can support up to 10 km, while bidirectional (BiDi) modules can achieve similar distances using a single fiber strand.
- Power and Safety:** Class 1 laser product; avoid looking directly into the fiber ends when powered.
- Single-Fiber Bidirectional (BiDi) Modules**
- Functionality:** BiDi modules allow full-duplex communication over a single fiber using Wavelength Division Multiplexing (WDM), with separate wavelengths for transmitting and receiving signals.
- Pairing Requirement:** BiDi modules must be used in pairs, e.g., SFP-10G-BXD1 with SFP-10G-BXU1, to ensure proper bidirectional communication.
- Advantages:** Reduces fiber usage by 50%, simplifies cabling, and supports high-density deployments.
- Components:** Each module integrates a DFB laser, a PIN photodiode receiver, and an internal WDM coupler for signal separation.
- Deployment Considerations**
- Compatibility:** Ensure modules are compatible with your switch or NIC; many vendors provide certified modules for interoperability.
- Distance and Fiber Type:** Verify the module's maximum link length and fiber type (OM3/OM4 for multimode, SMF for long distances) to match your network infrastructure.
- Monitoring:** Some modules support digital optical monitoring (DOM) for diagnostics and performance tracking.

Example Modules

- Ubiquiti 10G SM SFP+:** Supports 10G connections up to 10 km over single-mode fiber with duplex LC UPC connectors.
- FS 10G BiDi SFP+:** Enables full-duplex 10G transmission over a single fiber strand using WDM, with up to 10 km reach.
- Huawei SFP-10G-BX Series:** Single-fiber BiDi modules...
