

7035 Optical Module

Overview

The LINDEN-SPE-7035 STFOC is a single mode fiber optic underwater cable developed for subsea, marine, and harsh-environment optical communication systems. It is designed for projects where stable signal transmission, rugged cable performance, and underwater reliability are. Outstanding balance which reflects all unpaid changes due at this time per your selected payment method. Do not show again and take me directly to the Cart. This cable is. SURPASS hiT 7035 is a compact carrier class full blown STM-4/-1 add-drop-multiplexer which can be upgraded to a compact STM-16 ADM. SURPASS hiT 7035 supports core equipment protection with no single point of failure, and PDH electrical protection. It offers rich Ethernet features. Whether you are creating a 100-Gbps or 400-Gbps, small form-factor pluggable (SFP) module, SFP+ transceiver, XFP module, CFP, X2/XENPAK module. ADRV9361-Z7035 SDR 2x2 System-On-Module is a Software Defined Radio (SDR) that combines the Analog Devices AD9361 integrated RF Agile Transceiver™ with the Xilinx Z7035 Zynq® -7000 All Programmable SoC. The driver is located on the WE7000 Control Software CD ROM Ver. 2 and later or you can download it from our y-Link site listed below. Simplify complex testing with.
