

72-core terminal box

Overview

This 72-core terminal box, a rack-mountable 144-port fiber optic sc/lc cable terminal box, is specifically designed for those seeking a highly efficient and stable fiber optic network environment. Its 144 ports can accommodate up to 72 cores of fiber simultaneously, making it easy. The SJ-ODB-M18 wall-mounted fiber terminal box provides secure, modular management for up to 72 fiber optic cores, ensuring organized and accessible connectivity ideal for data centers, telecommunications, and commercial installations. These enclosures play a vital role in organizing, protecting, and managing fiber connections in both.
