

8 Heart Multi-Touch Optical Cable

Overview

Multi-purpose cable with eight cores in tubes with aramid yarn tightening. Black protection jacket with flexible and extremely tear-resistant pulling aid of nylon material on both ends. The EDGE8® QSFP to SFP+ harness is a 1x4 MTP® PRO to LC duplex harness (one pinned or non-pinned 8-fiber MTP PRO connector on one end, four LC duplex connectors on the other) for connection to electronics with LC-style ports and for use in aggregation of 10G ports to a 40G port. The fibre melt splicer uses a powerful high-speed motor that allows a splicing time of 5 seconds and a heating time of 15 seconds, which allows continuous splicing and heating of about 240 times. 3 IN 1 FIBER MOUNT The fiber splicer is equipped with 3 in 1 fiber. Designed for use with Nellcor OxiMax™ SpO₂ sensors, the M1943NL adapter cable is 3 m (9.8 ft) in length and features a D-sub connector. It adapts 9-pin sensors to 8-pin sockets. It can be used with these sensors: M1131A, M1132A, M1133A, M1134A, M1140A, M1191T, M1192T, M1193T and M1196T. Use. Pricing (USD) Filter the results in the table by unit price based on your quantity. A tariff of 10% may be applied if shipping to the United States.
