

Aesthetically pleasing electrical distribution box protection manufacturer

AI Overview

VIOX, E-Abel, Sunnom, and Allied Moulded Products offer durable, visually appealing electrical distribution boxes with customizable protection features. Leading Manufacturers and Their Offerings VIOX Electric provides distribution boxes made from high-quality ABS plastic and stainless steel (grades 201, 304, 316), combining durability with aesthetic design. Their enclosures feature user-friendly quick-access panels, modular components, and impressive IP ratings for dust and water protection. Flame-retardant materials and ergonomic designs ensure safety and ease of maintenance, making them suitable for both industrial and residential applications. E-Abel specializes in custom electrical distribution boxes tailored for industrial, commercial, and residential projects. They offer flexible material choices including steel, stainless steel, and aluminum, with powder-coated finishes for visual appeal. Using 3D modeling and digital twin technology, E-Abel ensures precise component fit, optimal layout, and enhanced safety while maintaining an attractive design. Sunnom focuses on high-grade thermoplastic distribution boxes that provide excellent impact resistance, UV stability, and flame retardancy. These enclosures are lightweight, easy to install, and designed with reinforced mounting points and secure locking mechanisms. Their modern plastic designs are suitable for outdoor and indoor applications, offering both protection and a clean, professional appearance. Allied Moulded Products offers fiberglass enclosures with flush, aesthetically pleasing cover-to-base designs. Their ULTRALINE® and ULTRAGUARD® materials provide durability, corrosion resistance, and high-temperature tolerance. Options include clear or opaque covers, hinged panels, and multiple closure types, allowing for both functional and visually appealing installations. Key Considerations for Selection Mate...
