

Anning Composite Cable Tray

Overview

Cable tray with cover section to prevent ingress of dust and liquid. Aesthetically pleasing appearance. Accommodate changes in direction and elevation of cable runs. Our cable trays are produced in fit for purpose materials like stainless steel, galvanized, aluminium and fibreglass (FRP/GRP) composites to suit any project type both offshore and onshore. We also. With over 60 years of expertise and innovation, the company has built a strong reputation in the field of cable and conduit management. The exceptional quality of our GRP products has been recognized worldwide, making us a preferred partner for numerous demanding industrial sectors. Mita Flex relates to our newest range of FRP/GRP pultruded cable management solutions, including. Composite cable trays provide reliable cable support in corrosive environments where metal trays fail prematurely.
