

Burkina Faso Cable Bridge Project

Overview

It is a 3,000 km long network that connects the 13 regions of Burkina Faso and nearly a hundred municipalities. The Ministry for the Development of the Digital Economy and Posts (MDENP) of Burkina Faso has entrusted Sofrecom with the task of supervising and controlling the deployment of the Ouaga-Pô fibre optic backbone network (FOOP) as part of the Regional Communication Infrastructure Project for West. Spanning 3000km and connecting nearly 100 municipalities across all 13 regions, Burkina Faso's fibre optic network also has. The government of Burkino Faso has chosen Telecel Faso's new subsidiary Bridge Fiber Solutions (BFS) to operate and maintain the country's fibre optic backbone network. Ouagadougou wants to rely on a robust, reliable and available digital infrastructure to achieve its objectives. The company launched its commercial activities in Ouagadougou on Friday, March 10 in the presence of the Minister of Digital Transition, Posts and. In a major move to tackle chronic energy shortages in West Africa, Dubai-based industrial giant Mark Cables FZE said on Monday that it has successfully developed a 200-megawatt (MW) thermal power plant project in Burkina Faso. The project, valued at approximately €180 million (\$213 million), was.
