

Columbia Tray Cable Tray Production

AI Overview

Columbia hosts several reputable cable tray manufacturers offering a range of products, including ladder, perforated, solid, and galvanized trays, produced with advanced machinery and customizable specifications. Key Manufacturers in Columbia

Cable House is a recognized manufacturer and supplier of cable trays in Columbia, providing customized solutions with high durability and reliable performance. They also offer related products like cable ties, crimping tools, and industrial connectors, ensuring comprehensive support for electrical installations .

Brilltech Engineers Pvt. Ltd specializes in galvanized and ladder cable trays, emphasizing corrosion resistance, robust construction, and international quality standards. Their products are widely used in electrical, automotive, and construction industries, and they offer customization based on size, material, and design requirements .

Cable Tray Types and Materials

Cable trays in Columbia are produced in various types to suit different applications:

- Ladder Cable Trays:** Feature side rails connected by rungs, ideal for high-load applications and ventilation .
- Solid Bottom Trays:** Provide full coverage for cables, protecting against dust and debris .
- Perforated Trays:** Allow ventilation while supporting cables, suitable for heat-sensitive environments .
- Trough Trays:** Offer secure storage for cables in outdoor or equipment-dense areas .

Materials commonly used include galvanized steel, stainless steel, aluminum, and fiberglass composites, chosen based on environmental conditions and load requirements .

Production Process

Cable tray manufacturing involves several steps:

- Material Feeding:** Sheets or coils are fed into roll forming machines with precise servo-controlled feeding systems .
- Roll Forming and Punching:** Machines shape the trays and create slots or holes for cable management, with adjustable width, height, and flange dimensions .
- Cutting and Coupling:** Trays are cut to required lengths, and outlets or openings are added for cable routing .
- Surface Treatment:** Trays undergo...
