

Composite Trough Cable Tray Manufacturer

AI Overview

Leading manufacturers of composite trough cable trays include EPP Composites, Ebo Systems, IndiGrate Composites, and Fibex Composites, offering durable, corrosion-resistant FRP/GRP solutions for industrial and commercial applications. Key Manufacturers and Offerings EPP Composites produces FRP cable trays in various configurations, including trough designs. Their trays are lightweight, non-conductive, corrosion-resistant, and fire-retardant, suitable for harsh chemical, saline, or outdoor environments. They also provide compatible accessories such as covers, couplers, and hangers for complete cable management solutions. Ebo Systems, part of the Niedax Group, specializes in GRP cable trays with exceptional resistance to corrosive environments, extreme temperatures, and heavy loads. They offer continuous pultrusion and hot pressing manufacturing methods, ensuring long-term durability and global availability across 27 countries. IndiGrate Composites designs FRP cable trays that combine strength, durability, and corrosion resistance. Their trays are engineered for industrial, commercial, and outdoor applications, including chemical plants, offshore platforms, and power facilities. They emphasize UV resistance, fire retardance, and high load-bearing capacity. Fibex Composites provides GRP cable trays that are lightweight, non-conductive, and corrosion-resistant. Their pultruded trays feature slot patterns for easy cable positioning and are suitable for both indoor and outdoor installations, particularly in public areas or buildings without panelled ceilings. Applications Composite trough cable trays are widely used in: Industrial plants and chemical facilities Offshore and marine environments Airports, warehouses, and railway projects Sports stadiums and exhibition halls Outdoor installations requiring UV and weather resistance Advantages of Composite Trough Cable Trays Corrosion Resi...
