

Customized Distribution Box Models and Prices

AI Overview

Customized distribution boxes are available in a wide range of models, including portable, waterproof, explosion-proof, and industrial units, with prices varying by capacity, features, and materials. Overview of Models Customized distribution boxes cater to diverse applications, including residential, commercial, industrial, and construction site needs. Key types include:

- Portable Electrical Boxes:** Lightweight, mobile units for temporary power distribution on construction sites or events, often with leakage protection devices and 220V compatibility.
- Waterproof and Outdoor Boxes:** IP-rated enclosures (e.g., IP65) designed for outdoor use, protecting against dust, rain, and environmental hazards.
- Explosion-Proof Models:** Specialized units for hazardous industrial environments, ensuring safety in volatile conditions.
- Power Control and Industrial Boxes:** Larger cabinets with modular designs, busbar fitments, and smart monitoring capabilities for factories, data centers, or renewable energy installations.
- Residential and Commercial Units:** Surface-mounted or flush-mounted boxes with varying amperage ratings (32A–125A), multiple circuits, and advanced safety features like surge protection and residual current devices.

Pricing Structure Prices for customized distribution boxes depend on several factors, including material quality, amperage capacity, number of circuits, IP rating, and additional features such as smart monitoring or modular design. General pricing trends include:

- Basic Residential Units:** Typically lower-cost, single-phase boxes ranging from \$50 to \$200 depending on size and features.
- Commercial and Industrial Units:** Higher-capacity three-phase boxes with advanced safety and control systems, ranging from \$300 to \$1,500 or more per unit.
- Customized or OEM Orders:** Prices vary based on specifications, volume, and additional customization such as logo embossing, cable...
