

Distribution box HS code

More durable and robust

The outer layer is made of environmentally friendly PVC, which is soft and elastic. It can be stretched without damage, so you can use it with confidence.

AI Overview

The primary HS codes for distribution boxes are 85371000 and 85366990, depending on the type and material. Common HS Codes for Distribution Boxes

HS Code 85371000: This code is widely used for electric distribution boxes, including those made of metal or plastic, and is applicable for general export and import purposes. It covers distribution boxes used in electrical installations, often with features like DIN rail mounting or IP-rated enclosures.

HS Code 85366990: This code is also used for distribution boxes, particularly in cases where the product may not fall under the standard 85371000 classification. It is commonly referenced in import data and trade reports, with average import prices and shipment details available for global trade analysis.

Material-Specific Considerations
Plastic Distribution Boxes: Often classified under 85371000, especially for industrial or electrical applications. These may include FRP or PVC enclosures used for water or electrical distribution.

Metal Distribution Boxes: Typically also fall under 85371000, particularly when used for electrical purposes with steel or magnetic steel construction.

Trade and Customs Relevance
 Using the correct HS code ensures: Smooth customs clearance and accurate duty calculation. Proper classification for export/import reporting, which is essential for compliance with international trade regulations.

Access to trade data, including top exporting countries, ports, and active buyers, which can help businesses identify profitable markets.
Summary
 For most distribution boxes, HS Code 85371000 is the standard classification, while 85366990 may be used for certain specialized or non-standard types. The choice depends on the material, function, and specific product characteristics. Always verify with local customs authorities or trade databases to ensure accurate classification for your shipment.
