

Dubai High-Quality Cable Tray Seismic Bracing

AI Overview

Leading cable tray seismic bracing solutions in Dubai are offered by BonnGulf, Unigroup, INDEX, and Metar, all providing high-quality trays, brackets, and support systems suitable for seismic applications. Key Brands and Suppliers

- BonnGulf** BonnGulf is a prominent manufacturer and supplier of cable trays and management systems in Dubai, offering ladder, perforated, and trunking cable trays with a full range of accessories including fastening systems, slotted channels, and steel lintels. Their products are designed for light, medium, and heavy loads, and the structural components can be adapted for seismic bracing in industrial and commercial projects. BonnGulf emphasizes ISO 9001:2008 certification, ensuring quality control and durability under various environmental conditions.
- Unigroup** Unigroup provides high-performance cable trays, trunking, and channel systems engineered for modern infrastructure. Their offerings include perforated, ladder, wire mesh, and GRP cable trays, along with slotted and plain strut channels and accessories suitable for seismic support. Materials include GI, hot-dip galvanized steel, SS304/SS316L, and epoxy powder-coated finishes, ensuring corrosion resistance and structural integrity for seismic applications.
- INDEX** INDEX is an established cable management manufacturer with ISO-certified production and European quality approvals. They specialize in customized cable tray systems and support structures, which can be engineered to meet seismic bracing requirements. Their products are widely used in prestigious Middle Eastern projects, offering innovative design solutions and robust structural support for cable installations.
- Metar** Metar supplies durable cable trays and accessories in Dubai, including wall brackets, cantilever brackets, ceiling supports, and steel lintels, which are essential for seismic bracing. Their trays are a...
