

FC interface 4-core single-mode fully equipped fiber optic terminal box

Overview

The Fiber Termination Box FC-4core is a compact, high-durability terminal box designed for environments requiring secure and vibration-resistant fiber connections. Produced and exported by Fenxi Optoelectronics Technology, this unit accommodates up to 4 optical fibers using FC (Ferrule Connector). The 4-core fiber termination box provides a stable, protective joint between optical cable and distribution pigtails at the end of fiber cables. It is typically used in cabling work area subsystems. Designed with a rugged cold-rolled steel housing, this termination box provides reliable, compact, and efficient termination for up to four fiber. Is your home broadband getting slower and slower?
