

Fiber Optic Sensor FSV11

Overview

Keyence Fiber Amplifier FS-V11 Digital Fiber Optic Sensor Amplifier Cable Type, Main Unit, NPN, Red LED, 250 μ s (FINE) /500 μ s (TURBO) /1 ms (SUPER TURBO) Response time, LIGHT-ON/DARK-ON (switch-selectable), NPN open-collector 100 mA max.), Residual. FS-V11, Fiber Amplifier, Cable Type, Main Unit, NPN in FS-V10 series by KEYENCE America. Has the ability to connect up to 16 expansion units and has reverse polarity protection, overcurrent protection and surge absorber. Technical characteristics: Buy Keyence FS-V11 with the best possible price and delivery terms on. Find many great new & used options and get the best deals for Keyence FSV11 Industrial Control System at the best online prices at eBay! Free shipping for many products!Keyence FS-V11 is a versatile sensor that can be used for a range of applications, including detecting objects, measuring distances and monitoring light intensity. It's designed to work with various fiber optic cables and can be easily set up and calibrated with a range of options for sensitivity. Estimated Lead Time : Usually ships in 1-10 working days. NEX Instrument Inc is not an authorized dealer, agent or associate of any of the designers, brands, or manufacturers, the products of which are offered for sale on www. All trademarks, brand names, and logos mentioned are. NPN open-collector 100 mA max. *1 If more than one unit is used together, the ambient temperature varies with the conditions below.
