

Fiber optic patch cord rack for sale

AI Overview

Rack-mounted fiber optic patch panels typically range from \$50 to over \$1,000 depending on port count, connector type, and preloaded options.

Price Overview The cost of a fiber optic patch cord cabling rack depends on several factors:

- Port Capacity:** Panels range from small 6-port units to high-density 1,728-port racks. Common sizes include 12, 24, 36, 48, 72, 96, 144, and 288 ports.
- Rack Unit Size:** Standard 19-inch racks occupy 1U, 2U, 3U, or more space. Higher U sizes generally accommodate more fibers and cost more.
- Connector Type:** LC, SC, ST, and FC connectors are available. LC and SC are most common, with duplex or quad options affecting price.
- Preloaded vs Blank Panels:** Preloaded panels with fiber pigtailed and adapter plates simplify installation and reduce maintenance time but are more expensive than blank panels.
- Single-mode vs Multi-mode:** Single-mode panels are typically slightly more expensive than multi-mode due to higher precision requirements.

Example Pricing

- 48-Port 1U Rack-Mountable Panel:** Supports 24 duplex SC adapters or 24 quad LC adapters. Prices for such panels generally start around \$100–\$200 for standard models.
- Economical Preloaded Panels:** Bundled pre-terminated panels with pigtailed and adapter plates can cost \$150–\$400 depending on strand count and connector type.
- High-Density or Custom Racks:** Large-scale racks (up to 24RU, 1,728 ports) with custom configurations can exceed \$1,000, especially with specialized connectors or pre-terminated fibers.

Additional Considerations

- Installation and Maintenance:** Retractable or swing-out panels can reduce installation time and improve airflow, potentially saving costs in labor and downtime.
- Scalability:** Choosing modular panels allows future expansion without replacing the entire rack, which can be cost-effective in the long term.
- Vendor Options:** Prices vary by manufacturer and region. Companies like UnitekFiber, Fiber Savvy, and Amerifiber offer both standard and custom solutions.

In summary, fiber optic patch cord cabling racks are priced based on cap...
