

Gabon fiber optic cable collapses

Overview

Gabon, like other African countries, has recently faced major disruptions in its internet services due to the failure of fiber optic cables. The ACE and SAT-3 cables were affected, but the country was able to adapt by using the WACS cable as an alternative. Video footage of Lyman, Donetsk, shows entire rows of houses and a field draped in sheets of translucent wire left behind by the aircraft. Local technicians quickly implemented. The sabotage of a submarine fiber optic cable was at the origin of the giant Internet blackout that paralyzed the digital economy in Gabon from Thursday night to Monday morning, according to the technicians of Gabon Telecom who we met on the Libreville seafront full repairs. That's why the work of the Léon Thévenin —This vessel, is. Fibre optic cables being dug into the ground in Ouessou in Northern Congo in 2015.
