

Gigabit Industrial Switch Manufacturers

OM1 Fiber Patch Cable Family

AI Overview

Top manufacturers for gigabit industrial switches include Cisco, TRENDnet, BV-Tech, EKI, Advantech, Kontron, and Winmate, offering rugged, high-performance solutions for industrial networks. Leading Manufacturers and Their Offerings

Cisco Cisco Industrial Ethernet switches are designed for harsh environments such as factories, transportation infrastructure, and substations. They provide full gigabit connectivity, PoE options, high-wattage support, low-jitter performance, and advanced security features. Cisco switches are suitable for AI-ready and software-defined industrial networks, with compact and modular form factors for space-constrained installations.

TRENDnet TRENDnet offers models like the TI-G80, which features 8 gigabit ports, DIN-rail mounting, IP50-rated rugged enclosures, and NDAA/TAA compliance. TRENDnet also provides compact PoE+ switches with 4 gigabit PoE+ ports and a 90W power budget, ideal for powering cameras and access points in tight spaces.

BV-Tech BV-Tech switches are built for high port density and rugged industrial environments. They offer 16 gigabit ports with 2 SFP uplinks and a 190W PoE budget, supporting high-power devices such as PTZ cameras and industrial sensors. These switches are designed to withstand extreme temperatures and harsh factory conditions.

EKI EKI manufactures industrial switches like the EKI-2712G-4FPI, which supports 8 gigabit PoE ports and 4 SFP ports, and the EKI-9728G, a Layer 3 managed switch with 16 gigabit ports and 4 x 10GbE SFP ports. EKI switches operate reliably in wide temperature ranges (-40°C to 85°C) and are suitable for extremely harsh environments.

Advantech, Kontron, and Winmate These manufacturers provide a broad range of industrial gigabit switches, including fanless and fiber-optic models, with flexible port configurations and ruggedized designs. They are widely used in industrial automation, transportation, and surveillance networks, offering both managed and unmanaged options.
