

H3C Hyperconverged Server and Core Switch

Overview

The H3C S7503X, part of the H3C S7500X switch series, is designed for next-generation enterprise core networks. This advanced switch supports high-density, high-performance environments, and delivers unparalleled reliability and scalability. In the new generation of cloud data center and smart campus scenarios, a new generation of intelligent, ultra-wideband, simple, and integrated network is created for users, which is applicable to various scenarios and network sizes. However, the current business system. AD-NET With the aim of "Application-Driven, Intent-Based," H3C Application-Driven Networking Solution (AD-NET) provides a proactive, adaptive and versatile network. It has two capabilities: an intent-based autonomous network (IBN), and more flexible container as well as micro-service based on cloud. The H3C UIS-Cell 5000 E2 Hyperconverged Infrastructure Appliance from H3C is enterprise-grade Servers hardware built for data centers. H3C's Campus Network Core Switches—comprising the S10500X-G Series, S10500X Series, and S10500 Series—stand at the forefront of this transformation, offering unmatched performance, reliability, and flexibility to meet the demands of modern networks. With a range spanning ten series and hundreds of switches, H3C's options can cover your networking needs – from the.

H3C S6550X-56HF-HI Review: 48×25G + 8×100G Campus / Data

The H3C S6550X-56HF-HI is a strong "2026-ready" platform when you need a dense 25G edge with multiple 100G-class uplinks, whether you deploy it as campus core/building

H3C S12500X-AF Data Center Cloud Core Series Switches

The H3C S12500X-AF DataCenter Cloud Core Switch Series is designed for cloud services data centers. It provides the following features: CLOS+ multi-grade multi-plane architecture With 768 line

UniServer Series-H3C

H3C UniServer Series Server H3C UniServer series are adaptable to various enterprise scenarios and provide intelligent, efficient, agile, and reliable computing infrastructure for the future-ready data center.

H3C S10500X-G Series Next Generation Core Switch

H3C S10500X-G has obtained IPv6 ready logo (phase 2), a globally recognized validation for commercial IPv6 deployment. Eco-friendly Front-to-Rear Air Flow: S10500X-G adopts the best heat

Products & Technology

With a range spanning ten series and hundreds of switches, H3C's options can cover your networking needs – from the data center core to campus access and

H3C S7503X Core Switch 3 Slots 960Gbps Price

This advanced switch supports high-density, high-performance environments, and delivers unparalleled reliability and scalability. Tailored to meet the needs of

Switches

With a range spanning ten series and hundreds of switches, H3C's options can cover your networking needs – from the data center core to campus access and remote branches. And all products run

H3C Products Calalogue (H3C Server, Switch) | PDF

The document is a 2023 product catalogue for H3C products. It provides an overview of H3C's digital solutions including smart connectivity, cloud computing, intelligent computing, intelligent terminals,

Hyper-Convergence-H3C

Hyper-Convergence Hyper-Convergence "The H3C UIS hyper-converged system follows the open architecture standard. It seamlessly integrates software technologies such as computing

H3C UIS-Cell 5000 E2 Cell-5000-E2 | Omnixon Global

The H3C UIS-Cell 5000 E2 Hyperconverged Infrastructure Appliance from H3C is enterprise-grade Servers hardware built for data centers. Integrated hyperconverged appliance combining compute,

h3c sfp optical module with warranty online manufacture

H3C S6520X-EI Series 10G SDN Switches Product Overview The H3C S6520X-EI Series are H3C self-developed 10G SDN Ethernet switches for next-generation core and aggregation layers.

Unlocking the Power of H3C Campus Network Core Switches

With a proven track record in medium to large campus networks, this series offers comprehensive Layer 2 and Layer 3 switching capabilities, ensuring seamless connectivity across

H3C UIS-Cell 3000 6000 G3 Hyperconverged Infrastructure Platform

The H3C UIS-Cell 3000/6000 G3 HCI Platform is H3C's next-generation cloud data center infrastructure solution for IaaS services, preloaded with industry-leading software UIS Hyper Converged 6.0. The

H3C S12500G-AF Data Center Intelligent Core Switch

H3C S12500G-AF is H3C's new generation of AI intelligent switches for the core scenarios of data centers, providing the industry's highest switching. It provides the following features: CLOS+ multi

H3C UIS-Cell 3000 6000 G3 Hyper Converged Infrastructure

The out-of-box solution allows users to build a cloud computing environment within 30 minutes and realize a super simplified hardware infrastructure platform for servers and switches as well as a

Switches-H3C

Build a high-bandwidth, converged, intelligent, and trusted optical network platform. Support smooth evolution capability for the future. In recent years, the IoT has developed rapidly. For the

Products & Technology

The H3C UIS 3000 G5 HCI server uses Intel Xeon 3rd-generation scalable processors, enabling a performance improvement of up to 52% for floating point operations and 42% kernel number

HPE Hyperconverged Infrastructure (HCI) Solutions | HPE

Learn how HPE Hyperconverged infrastructure HCI solutions drive resilience, agility and workload consolidation for your business.

H3C S10500X-G Series Next Generation Core Switch-H3C

H3C S10500X-G switch series is a series of Ethernet core switches specifically designed for the core layer of cloud computing data centers and next-generation intelligent campuses. Running the H3C
