

Hand-cranked optical cable frame

AI Overview

A hand-cranked optical cable frame is a manually operated reel stand designed to store, unwind, and manage fiber optic cables efficiently while maintaining proper tension and preventing cable damage.

Overview Hand-cranked optical cable frames are mechanical devices used to hold and dispense fiber optic cables in a controlled manner. They are particularly useful in environments where power-driven cable handling is impractical, such as field installations, marine applications, or temporary setups. The hand-crank mechanism allows operators to manually control the speed and tension of cable deployment, reducing the risk of stretching or kinking the delicate optical fibers.

Key Features

- Material and Durability:** Many frames are made from stainless steel, providing corrosion resistance for harsh environments, including coastal, offshore, or industrial settings.
- Tension Control:** Equipped with a T-handle tensioning device, the frame ensures proper tension is applied to the cable, preventing free spooling and potential fiber damage.
- Adjustable Crank Handle:** The hand crank can be rotated out of the way when not in use, offering convenience and safety during storage or transport.
- Swivel and Flow Design:** Some models feature a full-flow swivel, allowing smooth rotation of the cable reel and minimizing stress on the fiber.
- Compatibility:** Frames can accommodate various reel sizes and are often compatible with standard fiber optic cable spools.

Applications

- Fiber-to-the-Home (FTTH) Installations:** Used at access points or wall boxes to manage cable splicing and deployment.
- Industrial and Marine Environments:** Suitable for chemical transfer, washdown areas, or offshore installations due to corrosion-resistant construction.
- Temporary or Field Deployments:** Ideal for situations where electricity is unavailable or mobility is required.

Related Equipment

- Cable Management Frames:** Adjustable frames that hold splice closures and allow rotation for winding or unwinding cables, often mounted on poles or walls.
- Magnetic Powder Tension Frames:** Used in product...

Compact Hand Crank Ergonomic Standing Adjustable Desk Frame for

Compact Hand Crank Ergonomic Standing Adjustable Desk Frame for 35-71in Table Tops - PrimeCables® Bonus points are offered as part of our Shopper+ S-points Club program and can be

Hand-Cranked Wire Laying Machine for Optical Fiber Cables | Suzhou ...

Discover the 630-type hand-cranked cable laying rack by Suzhou Maiduobao, designed for 400-630mm reels. Enjoy quick, efficient operation and reliable stability.

Optical Distribution Frame Cabinet

Optical Distribution Frame Cabinets* Belden's DCX Optical Distribution Frame (ODF) Cabinets are fully configurable, front access cabinets that serve as a high-density fiber interconnect or the main

Cable Lay and Cable Handling Systems

Parkburn supplies a wide range of cable lay equipment for onshore and offshore use. The Parkburn design philosophy is to provide, high

4meter load60kg Hand cranked frame

Features: Non-rust, fireproof, hardware, lightweight, heavy duty load capacity. Eco-friendly, recycle, good at decoration, multi-function. Easy to set up, move, transport and stock. we have different load

Custom Photo Flipbook Frame

Celebrate and cherish the beautiful moments of life with our Lighted Hand-Crank Memory Photo Flipbook Frame. This exquisite keepsake is more than just an

Personalized Flipbook Frame Animation Machine Mechanical Hand-cranked ...

Capture your most cherished moments in a fun and unique way with the Flip Book Picture Frame Animation Machine. This custom photo gift lets you create a personalized flip book animation that

machines for fiber optical cable production

Acquire reliable equipment to produce optical cables for outdoor applications. Our machines win customers over with their outstanding

Wire Storage Hand-Cranked Reel Empty Cable Optical Fiber Winding

extension cord with roller. retractable extension cord. rewinder for magnetic wire. extension cord roller only. extension wire retractable. Welcome to our shop, I wish you a fortune and a happy life.

Wire and Cable Storage Reel Storage Hand-Cranked Reel Empty Cable ...

Buy Wire and Cable Storage Reel Storage Hand-Cranked Reel Empty Cable Optical Fiber Winding Rv Charging online today! Practical Cable Management Solution This Rolling Line Dish is a practical

Optical Distribution Frames (ODF)

Explore optical distribution frames (ODF) with efficient distributed chassis solutions at CommScope

Cable release frame hand cranked discharge truck cable channel steel ...

Cable release frame hand cranked discharge truck cable channel steel optical cable hydraulic power discharge reel 10 tons 5 tons 15 tons on sale, buy cheap Cable release frame hand cranked

Hand crank reel

Find your hand crank reel easily amongst the 72 products from the leading brands (Nederman, THALER, CABLE EQUIPEMENTS, ...) on DirectIndustry, the industry specialist for your professional

Hand-Cranked Wire Laying Machine for Optical Fiber

Discover the 630-type hand-cranked cable laying rack by Suzhou Maiduobao, designed for 400-630mm reels. Enjoy quick, efficient operation and reliable stability.

Indoor Installation of Corning Optical Communications Fiber Optic Cable

Pre-connectorized sections of cable are produced to meet specific length requirements. Any damage to the cable sections may require replacement of the entire section. WARNING: Automated Figure

Fiber Optic Cables | Corning

With 2 billion kilometers of fiber optic cables installed around the globe, Corning continues to lead the industry in product quality and innovation.

AMPCOM TPU Telescopic Rod Roller Fiber Optic Cable

Made of high-strength and wear-resistant TPU material, it effectively protects the surface of fiber optic cables, reduces friction damage, and extends the service
