

How much does a brand new fiber optic distribution box cost

AI Overview

A fully equipped fiber optic distribution box typically costs between \$50 and \$300, depending on port count, connector type, and preloaded configuration.

Price Overview

The cost of a fiber optic distribution box varies based on several factors:

- Port Count:** Boxes range from 4 to 144 ports. Smaller boxes (4–24 ports) are generally less expensive, while larger boxes (48–144 ports) cost more due to additional materials and pre-terminated fibers.
- Connector Type:** LC, SC, and ST connectors are common. LC/APC preloaded boxes are slightly more expensive due to higher precision and lower insertion loss.
- Preloaded vs Empty:** Fully loaded boxes with pre-terminated fiber pigtailed and adapter plates are more expensive than empty housings, but they save installation time and reduce maintenance costs.
- Form Factor:** Wall-mounted, rack-mounted, or outdoor-rated enclosures can affect price. Outdoor or IP-rated boxes with anti-UV and anti-aging plastics are typically higher in cost.

Typical Price Ranges

- Small FTTH/FTTX boxes (4–16 ports):** \$50–\$100 for fully loaded units.
- Medium boxes (24–48 ports):** \$100–\$200, depending on pre-terminated fibers and connector type.
- Large rack-mounted or high-density boxes (72–144 ports):** \$200–\$300 or more, especially for preloaded LC/APC configurations.

Additional Considerations

- Bundled Options:** Some suppliers offer bundles with pre-terminated pigtailed, splice trays, and adapter plates, which can reduce overall installation costs.
- Quality and Brand:** Premium brands or boxes with enhanced durability, IP ratings, or specialized features (like swing-out or slide-out panels) may cost more but provide better long-term reliability.
- Installation Costs:** Fully equipped boxes reduce labor costs since pre-terminated fibers simplify splicing and termination.

In summary, a fully equipped fiber optic distribution box can cost from around \$50 for small FTTH units up to \$300 or more f...
