

How much does a household electrical distribution box cost in Suriname

AI Overview

Electrical distribution boxes in Suriname range from approximately USD 50 for small surface-mounted units to several thousand dollars for prefabricated substations, depending on type, capacity, and supplier.

Small Surface-Mounted Distribution Boxes For residential or light commercial use, surface-mounted small distribution boxes with 2 to 36 modules and a maximum capacity of 63A are available. Prices for these units, including shipping and import duties, typically start around USD 50-200 depending on the number of modules and features such as IP40 protection and glass finishes. These can be purchased online through platforms like Desertcart, which handles customs clearance and local delivery in Suriname.

Floor-Mounted and Industrial Distribution Boxes For larger installations, floor-mounted power distribution boxes are available through local suppliers and B2B marketplaces. Prices vary widely based on capacity, configuration, and manufacturer. Interested buyers can contact suppliers directly in Suriname to obtain quotes for bulk or custom orders.

Prefabricated Substations For industrial, commercial, or infrastructure projects, ZBW-type prefabricated substations combine high-voltage switchgear, transformers, low-voltage switchgear, and metering devices in one or several boxes. These units are suitable for urban buildings, industrial sites, and large-scale installations. Prices for prefabricated substations are significantly higher, generally ranging from USD 5,000 to over USD 50,000, depending on transformer capacity (50-1600 kVA), configuration, and additional features.

Local Suppliers and Distributors Machines equipments Suriname: Offers a range of power distribution equipment and can provide bulk orders or custom solutions. UCC Company: Distributor of electrical components and cables, which may include distribution box...
