

How much does it cost to install optical cables in mines

Overview

Median costs in 2025 were \$18 per foot for underground builds and \$8 per foot for aerial builds, with significant variation based on terrain, density, and construction methods, according to the Fiber Broadband Association. Armored fiber optic cables designed for direct burial cost \$6-14 per linear foot. Conduit systems add \$2-4 per foot but allow future cable additions. Total Project Costs: For commercial installations, expect costs ranging. The median cost of labor and materials to deploy underground fiber is \$18. For planning, consider a project-wide range of \$1,000 to \$30,000+ for several hundred to several thousand feet, with per-foot costs. Buying fiber optic installation services involves several cost components, with total price influenced by length, location, and access.
