

How to hide the fiber optic router socket

Overview

Place the modem and router in a wicker basket, metal laser-cut box, or cable organizer to keep the modem and router out of sight. If the router is in a highly visible area, you can rearrange furniture, add plants, or set out framed photos to cover the modem and router. Read on to get inspired and figure out the best way to hide your equipment. But what if you have very thick wall and the signal is blocked or too weak?

What if you have a very large home and the signal doesn't come where. I've rounded up some seriously creative ways people have hidden their broadband routers using covers, screens, and clever camouflage techniques. From fake books to woven baskets, these ideas will help you keep your WiFi strong while maintaining your home's aesthetic. I asked interior designers how they tackle these unsightly internet accessories, and they shared a few smart solutions. I probably went overboard, but I was on a mission! QUICK TIP – Always have at least 1 set of sockets on each wall – to.
