How to Strip Electrical Wire like a Pro 6 Ways

Learn how the pros strip wire and do the job right. Stop nicking wire and risking fire and short circuits. See the tools that make the job easier and avoid t...

How to Strip a Wire (With or Without a Wire Stripper)

OverviewUsing a Manual Wire StripperUsing a Self-Adjusting Wire StripperUsing a Utility KnifeUsing ScissorsUsing Lineman's PliersUsing a Wire Wrap ToolRest the utility knife's blade on the wire's insulation. Place the wire on a flat, sturdy work surface. Use one hand to hold the utility knife against the end of the wire where you want to strip the insulation. Don't do any cutting just yet, but let the knife rest on the exact spot you want to cut. For most electrical projects, remove 1 inch (2.5 cm) of insulation from the end of the wire. Roll the wire under the blade to score the insulation. See more on wikihow Missing: optical cableMust include: optical cableDIY Doctor
