

How to teleport in Sky Children of the Light when the internet connection is off

AI Overview

You can teleport offline in Sky: Children of the Light using in-game portals, the Return Shrine, or camera-based tricks without needing an internet connection. Using Portals and Return Shrine Even when offline, you can teleport between zones you have already unlocked. In your Home space, portals to each unlocked level are available. Simply approach a portal to instantly travel to that zone without needing online connectivity. Additionally, the Return Shrine allows you to resume where you left off in a level, effectively teleporting you back to your last location within that zone.

Camera Trick Teleport A popular offline method involves the camera trick. By using the Shared Memory spell along with the camera, you can perform shortcuts and teleport within certain areas, such as the Vault of Knowledge. This trick does not require an internet connection and can help you reach previously visited locations quickly.

Tips for Offline Teleportation Complete Eden first: Some teleport gates may not function properly if you have active quests or incomplete areas. Finishing Eden ensures all spirits and zones are visible and accessible. Restart the game if gates are bugged: Occasionally, teleport gates may default to your last location. Restarting the game can reset this behavior. Use shortcuts in Vault of Knowledge: Certain areas have hidden paths or cauldron tables that allow direct teleportation to other zones, which can be used offline once discovered. By combining portals, the Return Shrine, and camera-based tricks, you can effectively navigate the game offline without relying on online teleportation features.
