

IC-grade explosion-proof distribution box

Overview

A series of control and distribution panels made from aluminum. Ex d and Ex tb certified for installation in explosion-hazardous areas. Suitable for use in gas group IIB+H 2 environments. EJBA enclosures are used as terminal boxes or bus bar systems, as junction boxes with terminals, as enclosures for equipment such as control devices, relays, contactors and/or. Polyester distribution boxes have been of great advantage in many industrial plants. They offer safe protection even when they are exposed to extreme environmental conditions, aggressive chemical media or high mechanical stress. Moreover, we have a full range of control stations that can be equipped. ROSE supplies flameproof enclosures in various sizes and types for use in various gas groups and service-temperature ranges. The enclosure experts from Porta Westfalica thus provide industry with a broad range of solutions for the safe and reliable encapsulation of electrical equipment. Whether as. Atexdelvalle offers world-class explosion-protected solutions guaranteeing highest quality and performance with no compromise.
