

Industrial distribution box with circuit breaker

Overview

The best industrial distribution box for most commercial or heavy-duty applications is a metal enclosure with at least IP65 rating, multiple circuit breakers, and clear labeling for ease of maintenance 1. Various versions of distribution boxes, a large selection of materials, voltage ranges, rated currents and IP protection types / protection classes for indoor and outdoor use, as well as a wide range of accessories and tools such as WAGO plug-in terminals, crimping tools, cable ties, wire end. [Industrial Grade Socket Box] Equipped with 4pcs two core sockets (220 to 250V 16A) and 2pcs five core sockets (380 to 415V 16A, 32A), meeting the power distribution needs of various electrical equipment. [Built in Circuit Breakers] Featuring C16 and C32 circuit breakers (1P 230V 16A, 3P 400V 16A. The distribution box (DB box) helps safely and efficiently distribute electrical power. Today, electrical systems are essential for homes and industries. Made from durable polyvinyl chloride (PVC), these boxes offer excellent resistance to corrosion, impact, and environmental conditions.
