

Industrial-grade fiber optic access switches

Overview

Industrial fiber optic Ethernet switches are designed to deliver stable, long-distance, and interference-resistant network connectivity in harsh industrial environments where copper Ethernet is limited by distance or electromagnetic noise. Our industrial fiber switch portfolio covers Fast Ethernet. Benefit from industrial AI and software-defined automation, thanks to a reliable, low-jitter, high-bandwidth network that prioritizes time-sensitive data so that you can optimize production, increase productivity, and reduce downtime. Our comprehensive portfolio includes unmanaged switches, managed switches, PoE switches. For your most sensitive temperature and noise challenged environments, VERSITRON manufactures a wide range of Industrial Fiber Optic Switches that are available in the following formats: You can count on these devices to produce a variety of options including screw terminal for power, and a choice. Industrial-grade Ethernet Switches are specifically designed to connect devices in network environments that are subject to extreme operating temperatures of -40°C to 75°C , vibrations, and shocks. They are built to exceed the specifications of commercial switches with industrial safety. Our Industrial Ethernet Switch portfolio comprises Managed and Unmanaged Switches with Gigabit, PoE, IEC 61850 certification, and for DIN rail mounting.

Article Content

DwyerOmega | Shop for Sensing, Monitoring and

Explore DwyerOmega's comprehensive range of industrial sensing, monitoring, and control solutions from thermocouples to pressure transducers engineered for

RLH Industries, Inc. | Fiber Optic Link

RLH Industries manufactures industrial fiber optic communication equipment: converters, Ethernet switches, enclosures, fiber cable, and power supplies.

Ethernet Switches

Moxa provides a wide range of industrial Ethernet switches that feature industrial-grade reliability, network redundancy, strengthened security, easy management, and competitive price-to

Industrial Ethernet Switches | WAGO

WAGO's switch portfolio provides scalable Ethernet network infrastructure with excellent electrical and mechanical performance. These rugged devices are designed for industrial use and are fully

Fiber Optic Network Switches

Buy fiber network switches to extend ethernet network over fiber. Order Versitron high speed fiber optic network switches for fiber optic switches application. Our

Industrial DIN Rail Ethernet Switches with up to 5 fiber uplink ports

Industrial Ethernet Switches with up to 5 Fiber Uplink Ports Industrial-grade Ethernet Switches are specifically designed to connect devices in network environments that are subject to extreme

Industrial Fiber Optic Switches

Our products make use of SFP modules for multimode or singlemode fiber with LC connectors. Many of our switches support 1 or 2 fiber ports which are advantageous when daisy chain configurations are

Industrial Ethernet Switches

With high-speed 10-GE uplinks, high-wattage PoE options, ultra-low jitter, advanced network security features, and device-to-cloud performance monitoring with the Cisco ThousandEyes agent, these

Industrial Ethernet Switches | Industrial Network Switch

Rugged Industrial Ethernet Switches with PoE, 5-10 ports, 10/100/1000Base-T and fiber support. Built to withstand -40°C to 75°C, shocks and vibration.

Industrial Ethernet Switches

Modernize your operations with Cisco Industrial Ethernet switches: Increase productivity, boost security, and empower industrial AI.

Industrial Fiber Optic Switches

Know everything about hardened network switches also known as industrial grade hardened managed switch or hardened Ethernet switches

Industrial Ethernet Switches

Additionally, with multiple industrial certifications, our industrial Ethernet solutions not only provide the highest network reliability for Ethernet hubs and network

Industrial Ethernet Switches | Phoenix Contact

Industrial unmanaged switches from Phoenix Contact feature variable numbers of ports and a narrow design. We provide unmanaged switches with a variety of functions, depending on the application.

Industrial Ethernet Switches

Unmanaged industrial Ethernet switches provide low-cost network connections with options supporting 10/100/1000BaseT, PoE++ capability, IP67 M12 connections, and fiber optic ports.

Fiber Ethernet Network Switches

In industrial environments, ruggedized switches are used to support automation and control systems, while in healthcare, fiber optic networks are

Industrial Fiber Optic Ethernet Switches | SFP, Single-Mode

Explore industrial fiber optic Ethernet switches from a direct manufacturer. SFP, single-mode and multimode fiber switches available in unmanaged and managed designs. OEM, wholesale, and

Industrial Ethernet Switches

Our switches are built for high network flexibility, cyber security and durability and are suitable for use in mission-critical environments.

Industrial Fibre Switches ▷ Westermo

Explore Westermo's range of robust industrial fibre switches available with different management levels and a variety of port configurations.

Industrial Fiber Optic Switch

Explore our selection of industrial fiber optic switches for reliable and efficient network connectivity. Our industrial fiber switches are designed for durability and
