

Manufacturer of remote monitoring type DC power distribution unit for server racks

Overview

Vertiv™ Geist™ Monitored rack PDUs (rPDU) provide a comprehensive view of power usage, both at the rack and via remote access while continuing to provide reliable power distribution to critical IT equipment. Monitored rPDUs are available in a variety of electrical and receptacle. Eaton's rackmount PDU offering provides you with the power density and flexibility you require regardless of whether you're looking for PDUs for server racks or switching environments. From basic to advanced, switched PDUs, Eaton as rackmount PDUs for everything from small network closets to the. From basic PDUs, to monitored and switched rack power distribution units, to locking receptacles, Vertiv's solutions will offer the power distribution you need, as well as remote monitoring and management of your assets' power usage, so you can rest assured everything is running at peak. Best-in-class intelligent rack power distribution (PDU) with up to 50% more power, twice as many outlets, and a 4-in-1 combination outlet design for fast, flexible deployment Maximizing density, speed of deployment, and availability in data center environments. Delta's power management solution is composed of Uninterruptible Power Supplies (UPS), Power Distribution Unit (PDU), Rack Power Distribution Units (rPDU), Rack-Mount Remote Power Panel (rRPP) and Rack-Mount Static Transfer Switch (rSTS) that provide optimal power distribution and protection for. Rack mount PDUs effectively distribute power to racks where multiple outlets are necessary. Rack PDUs are used in 120V, 200-240V and other environments of.
