

Norwegian busbar accessories prices

AI Overview

Busbar accessories in Norway vary widely in price depending on type, quantity, and supplier, ranging from individual connection terminals to bulk support brackets. Overview of Pricing Mouser Norway offers a variety of busbar accessories including endcaps, cuttable busbars, and circuit breaker attachments. Prices are listed in NOK and can be filtered by unit price based on quantity. For example, a 100A, 480 VAC, 56-pin busbar with endcaps is available online, and pricing depends on the number of units ordered. Mouser allows online ordering with no minimum order requirements. Onninen provides busbars and accessories such as COMB BUSBAR 3P 100A 57MOD. Prices are visible after logging in or creating an account, indicating that pricing may vary for registered customers or bulk orders. Electric Automation Network lists specialized busbar accessories like support brackets, connection terminals, and identification inserts. Pricing is often per unit or per 100 units, with minimum order multiples specified. For instance: Support brackets for busbar shrouds: price per 100 units, minimum order 20 units. Connection terminals (35 mm²): price per 1 unit, minimum order 5 units. Quick assembly identification inserts: price per 1 unit, minimum order 50 units. Key Considerations Quantity Discounts: Many suppliers offer lower unit prices for bulk purchases, so total cost depends on order size. Custom Orders: Some accessories are manufactured to customer specifications, which may affect price and delivery time. Supplier Differences: Prices vary between distributors, and some require account registration to view detailed pricing. For accurate budgeting, it is recommended to check the supplier websites directly, filter by the required quantity, and consider any minimum order requirements. This ensures you get the most up-to-date pricing for Norwegian busbar accessories.
