

Optical Module Multichannel Power Meter

Overview

This OPM series of the module is designed for network monitoring and laboratory test applications, featuring high accuracy, a large dynamic range, and low cost. Available with up to 24 individual detectors, the OPM-150 includes simultaneous power measurements on all channels and built-in USB and Ethernet communication. Our optical power meters feature built-in calibration factors. FIBERPRO's newly released optical multichannel power meter, the PM2100, provides the best production efficiency for optical device manufacturers. High speed communication test plays an important role in the rapid development of big data, cloud. The Santec OPM-150 is a versatile and cost-effective multichannel optical power meter for manufacturers and professionals managing high-channel-count optical systems.

Multichannel Optical Power Meter

Multichannel Optical Power Meter PM2100 FIBERPRO's newly released optical multichannel power meter, the PM2100, provides the best production efficiency for optical device manufacturers. The

OPM-150 Multichannel Optical Power Meter

Versatile, fast multichannel power meter for optical testing. The Santec OPM-150 is a versatile and cost-effective multichannel optical power meter for

OP710 Multichannel Optical Power Meter

The OP710 offers an economical approach for optical power measurement applications where multiple channels are needed. Unlike other systems, this

High-Speed Multichannel Optical Power Meter

Overview The OP740 offers a state-of-the-art solution for high-speed optical power measurement applications where multiple channels are needed. Unlike many other systems, this instrument is

Optical power meters

All of EXFO's modular (IQS line) and benchtop power meters are built for top performance and pinpoint accuracy, and the various models offer a mixture of features and specifications to suit various test

Multichannel Optical Power Meter (OPM-160) | Santec

The OPM-160 is a multi-channel, high-speed optical power meter. Unlike other solutions, all channels are measured simultaneously.

Santec MPM-210 Multichannel Optical Power Meter

The Santec MPM-210 is a modular multichannel optical power meter engineered for simultaneous high-accuracy measurements across multiple optical channels in research, development, and

OptoTest Multichannel Optical Power Meter | Laser Focus World

OP710 is available with 12 or 24 channels and a variety of connector options. With the rackmount option multiple instruments can be combined and configured for higher channel ...

OP710 Multi-channel optical power meter

OP710 provides an economical solution for measuring multi-channel optical power. Unlike other systems, this instrument uses independent optical power meters for each channel to obtain data non

PM2100 Multichannel Power Meter | 20-Channel

PM2100 multichannel optical power meter with 20 channels, -80 to +10dBm, 100kHz. FIBERPRO for IL/WDL/PDL swept test systems.

OPM-150 Multichannel Optical Power Meter

Multichannel Optical Power Meter Product Overview Santec's OPM-150 Multichannel Optical Power Meter is a cost-effective solution for manufacturers or labs requiring high channel counts. Available

Multichannel Optical Power Meter

The PM2100 measures optical power for a maximum of 20 different channels with rapid measurement speed and high resolution. The PM2100 is suitable for measuring the PDL and IL of multichannel

Optical Power Meters

VIAVI offers fast, cost-effective, and easy-to-use power meters for installation and maintenance of single mode and multimode fiber optic networks and advanced, photonic-layer power meters for lab and

Multi-Channel Power Meter-Semight Instruments

Optical Test Instrument PM420X Multi-channel Power Meter PM420X optical power meter has small volume and wide power measurement range. It is widely used for optical transceiver module

MultiFiber™ Pro Optical Power Meter and Fiber Test Kits

The Fluke MultiFiber™ Pro Optical Power Meter and Fiber Test Kit is the 1st MPO fiber tester with both single mode and multimode certification. Learn more.
