

Pingyin Cable Tray Price Quote

AI Overview

Pingyin cable tray prices vary widely depending on material, type, and order quantity, typically ranging from \$2 to \$25 per meter. Price Overview Cable tray costs are influenced by material, design, coating, and supplier. Common materials include:

- Galvanized steel:** Most common, balancing durability and cost, suitable for heavy installations.
- Stainless steel:** Higher price due to superior corrosion resistance, ideal for harsh environments.
- Aluminum:** Lightweight and rust-proof, slightly more expensive than steel.
- Plastic:** Budget-friendly, suitable for light loads and indoor use.

The average price per meter ranges from \$2 to \$25, depending on material, type (ladder, perforated, wire mesh), and surface finish. Standard hot-dip galvanized ladder trays are often sold in 2.4-meter lengths, with fittings priced per piece. Bulk orders or OEM arrangements can reduce costs significantly.

Factors Affecting Price

- Material and Coating:** HDG (hot-dip galvanized) and powder-coated trays cost more but offer longer lifespan and corrosion protection. Stainless steel is the most expensive but highly durable.
- Tray Type:** Ladder trays are more expensive but support heavy cables; wire mesh or perforated trays are cheaper and suitable for lighter loads.
- Order Quantity:** Larger orders often qualify for volume discounts, especially when sourced directly from manufacturers or Pingyin suppliers.
- Installation and Shipping:** Labor and transport costs vary by region and can add to the total project cost.
