

Price of Australian Polymer Cable Trays

AI Overview

The price of Australian polymer cable trays varies depending on size, material, and supplier, typically ranging from AUD \$50 to \$300 per tray, with custom or heavy-duty options costing more.

Overview of Polymer Cable Trays in Australia Australian polymer cable trays, such as the EPT Plastic Cable Tray by Basor Electric, are made from UV-resistant PVC and are designed for humid, marine, or corrosive environments. They are fire-retardant, electrically insulated, and suitable for both internal and external installations, making them ideal for industries like water treatment, mining, pharmaceuticals, and port infrastructure (EzyStrut). These trays are lightweight, easy to install, and can be customized with bends, tees, and risers on-site. Covers are available to keep cables tidy, and the trays are rated for temperatures up to 60°C with a dielectric strength of 18+/-2 kV/mm.

Factors Affecting Price

Material and Quality: UV-resistant, fire-retardant, or chemically resistant PVC trays are more expensive than standard plastic trays.

Size and Length: Common lengths are 500mm, 1000mm, and 2000mm, with wider or longer trays costing more.

Load Rating: Trays designed for heavy-duty or high-volume cable loads are priced higher.

Customization: Special shapes, bends, or fire-rated trays increase cost.

Supplier and Brand: Prices vary between suppliers like EzyStrut, 4Cabling, and Lecky's Electrical & Data, with premium brands generally charging more.

How to Obtain Pricing Since prices are not always listed online, the best approach is to contact suppliers directly for a quote based on your project requirements. Many suppliers, including EzyStrut and 4Cabling, offer online catalogs and sales support to provide tailored pricing for specific tray sizes, materials, and quantities.

Typical Price Range

Standard polymer trays (small to medium size): AUD \$50-\$150 per tray

Larger or heavy-duty trays: AUD \$150-\$300 per tray

Custom or fire-rated trays: Prices may exceed AUD \$300 depending on specifications

By considering these factors and consulting suppliers, you can obtain...
