

Price of FRP Cable Trays in China and Europe

AI Overview

FRP cable trays in China range from approximately \$1 to \$5 per meter depending on type and volume, while European prices are generally higher due to stricter standards and production costs.

FRP Cable Tray Pricing in China

In China, FRP cable trays are widely available from manufacturers such as Hebei Aoliande, Shanghai Besca, and Yongchang, offering ladder, perforated, and trough-style trays. Prices vary based on tray type, size, and order volume:

- Small to medium orders: \$2.50–\$5.80 per meter for standard ladder or perforated trays.
- Large bulk orders (10,000+ meters): \$1–\$1.88 per meter, with suppliers like Hebei Sinta Trading and Hengshui Hongwo providing the most competitive rates.

Customization: OEM/ODM options are available, which may slightly increase cost but allow tailored dimensions, load capacity, and fire-retardant properties.

Chinese FRP trays are popular for their corrosion resistance, lightweight design, and long service life, making them suitable for industrial, petrochemical, and infrastructure projects.

FRP Cable Tray Pricing in Europe

European FRP cable trays are generally more expensive due to:

- Stricter regulatory standards:** Compliance with CE, EN1461, IEC 61537, and fire safety codes increases production costs.
- Higher labor and energy costs:** Manufacturing and logistics in Europe contribute to higher unit prices.

Market trends: European buyers often prioritize durability, flame retardancy, and environmental compliance, which can raise prices. While exact European prices vary by country and supplier, typical costs are estimated at \$5–\$12 per meter for standard FRP trays, with specialized or heavy-duty trays potentially exceeding this range.

Factors Affecting Price

- Tray Type:** Ladder, perforated, solid-bottom, or wire mesh designs influence cost.
- Material Quality:** Resin type, fiberglass content, and fire-retardant additives affect pricing.
