

Price of Low Voltage Optical Cable Trays

AI Overview

Low voltage optical cable trays typically range from \$10 to \$150 per meter, depending on material, type, and duty rating.

Price Overview The cost of low voltage optical cable trays varies based on material, design, and load capacity:

- Wire Mesh Cable Trays:** Commonly made from carbon steel, stainless steel (304L/316L), or hot-dip galvanized steel. Prices generally start around \$10-\$30 per meter for standard indoor trays, with outdoor or powder-coated options costing more due to corrosion resistance and durability.
- Perforated or Ladder Trays:** These are often medium to heavy-duty trays suitable for higher cable loads. Prices can range from \$50 to \$150 per meter, depending on width (50mm-600mm), length (1-3 meters), and finish (pre-galvanized or hot-dipped galvanized).
- Custom or Specialized Trays:** Custom designs, including bends, tees, and crossovers, may increase the total cost. On platforms like Made-in-China, bulk or wholesale orders can reduce per-unit pricing.

Factors Affecting Price

- Material:** Stainless steel and hot-dip galvanized trays are more expensive than carbon steel due to corrosion resistance.
- Duty Rating:** Light-duty trays are cheaper, while medium and heavy-duty trays designed for high cable loads cost more.
- Length and Width:** Longer and wider trays increase material usage and cost.
- Accessories:** Couplers, bends, risers, and lids add to the overall price.
- Supplier and Region:** Prices vary by manufacturer and shipping location. Companies like ABB and Fiber Savvy offer competitive pricing with local distribution to reduce lead times.

Purchasing Tips

- Compare suppliers:** Check multiple vendors for quotes, including Fiber Savvy, LongXing, Direct Channel, and ABB.
- Consider total cost:** Include installation, accessories, and maintenance when budgeting.
- Bulk orders:** Ordering in larger quantities can reduce per-meter costs, especially from wholesale platforms.

By considering these factors, you can estimate the cost of low voltage optical cable trays for your project and select the most suitable type and supplier.
