

## Price of Outdoor Column Distribution Box

### AI Overview

Outdoor column-mounted distribution boxes typically range from \$200 to \$1,500 depending on size, material, and features. Price Range and Examples

**ATB Outdoor Column:** Designed for control housings and compressors, this PE material column measures 1345 x 420 x 295 mm and includes ventilation, a lockable cover, and a mounting plate. Prices vary depending on supplier and shipping, with VAT included for European deliveries.

**Stainless Steel Outdoor Distribution Box:** Floor-standing, weatherproof, and equipped with safety locks and mounting plates, these boxes are suitable for industrial and residential outdoor use. Pricing generally starts around \$300–\$500 for standard sizes, with larger or customized units costing more.

**Home Depot Outdoor Breaker Boxes:** Standard outdoor breaker boxes for residential use are available online and in-store, with prices typically ranging from \$150 to \$600, depending on amperage, number of circuits, and material.

**Factors Affecting Cost**

**Material:** Stainless steel or high-quality PE columns are more durable and weather-resistant, increasing the price.

**Size and Capacity:** Larger boxes with more internal space or higher amperage ratings cost more.

**Features:** Lockable lids, ventilation, mounting plates, and waterproof seals add to the cost.

**Installation and Shipping:** Pallet shipping or professional installation can increase the total investment.

**Customization:** Special configurations, labeling, or integration with building management systems can significantly raise the price.

**Summary**

For a typical outdoor column-mounted distribution box, residential units start around \$200–\$400, while industrial or high-capacity units can exceed \$1,000, especially when made from stainless steel or equipped with advanced safety and monitoring features. Considering durability, weather resistance, and compliance with electrical standards is essential to ensure long-term reliability and safety.
