

Price of Rounded Corner Molding for Distribution Boxes

AI Overview

Rounded corner molding for distribution boxes typically ranges from \$2 to \$15 per piece, depending on material, size, and supplier. Pricing Overview Amazon offers pre-cut pine rounded outside bullnose corner baseboard moldings, primed white, with dimensions like 5.5" x 11/16" or 5.5" x 3/4". Prices generally range from \$2 to \$10 per piece, depending on quantity and size. Etsy features custom or handmade round corner moldings, including bamboo or wood options, with lengths from 24" to 92" and widths from 2" to 6". Prices vary widely, typically \$5 to \$15 per piece, reflecting customization and material. Alibaba provides bulk or customized round corner moldings for industrial or commercial use. Pricing is often quoted per meter or per batch, and can be lower for large orders, but exact prices require contacting suppliers directly. New York Metal supplies aluminum and stainless steel moldings suitable for distribution boxes. Minimum orders start at \$100, with additional packing and handling fees for orders under \$200. Shipping costs depend on length and carrier, and specialty cutting may incur extra charges. Factors Affecting Price Material: Wood (pine, bamboo) is generally cheaper than metals (aluminum, stainless steel). Size and Length: Longer or wider moldings cost more. Customization: Custom cuts, finishes, or colors increase the price. Quantity: Bulk orders often reduce per-unit cost. Shipping and Handling: Especially for metal moldings, shipping fees can significantly affect total cost. Recommendations For small-scale or DIY projects, Amazon or Etsy is convenient and cost-effective. For industrial or commercial applications, Alibaba or New York Metal is better suited, especially if bulk quantities or specific metal profiles are required. Always check dimensions, material, and finish to ensure compatibility with your distribution boxes. By considering these factors, you can select the most...
