

Price of Stainless Steel Distribution Boxes

AI Overview

Stainless steel distribution boxes typically range from \$50 to \$500 or more per unit, depending on size, IP rating, and features.

Pricing Overview

The cost of stainless steel distribution boxes varies widely based on several factors:

- Size and Capacity:** Small junction boxes for residential use may start around \$50-\$100, while larger industrial or commercial distribution panels can exceed \$300-\$500 per unit.
- IP Rating and Durability:** Outdoor or waterproof models with IP65, IP66, or IP68 ratings generally cost more due to enhanced protection against dust and water.
- Material Grade:** High-quality stainless steel grades such as 1.4301 (V2 A) or 1.4404 (V4 A) used in hazardous or extreme environments increase the price.
- Features:** Additional features like overload protection, short circuit protection, ground fault protection, smart monitoring, or pre-installed mounting plates can raise costs.
- Customization:** Customer-specific designs, special sizes, or additional accessories such as flange plates, wall attachment straps, or internal PE connections can further affect pricing.

Where to Obtain Current Quotes

For the most accurate and up-to-date pricing, consider the following suppliers:

- Alibaba:** Offers a wide range of stainless steel distribution boxes with options for bulk orders and customization. Prices vary by model, IP rating, and quantity.
- DigiKey:** Provides in-stock stainless steel boxes suitable for electronic enclosures, with immediate pricing and same-day shipping options.
- McMaster-Carr:** Features corrosion-resistant and compartmented stainless steel boxes with same or next-day delivery, allowing you to view current prices online.
- BARTEC:** Specializes in high-quality stainless steel distribution boxes for hazardous zones, offering standard and custom sizes. Pricing is typically available upon request due to customization options.
