

Price of Trunk Optical Cable Installation

AI Overview

Trunk optical cable installation typically costs between \$1 and \$6 per foot, with total project costs ranging from a few thousand to over \$100,000 depending on length, terrain, and complexity.

Cable Costs The cost of the fiber optic trunk cable itself depends on fiber type, strand count, and construction. Single-mode fiber ranges from \$0.10 to \$0.50 per foot, while multimode fiber costs \$0.30 to \$1.00 per foot. Higher strand counts, armored cables, or plenum-rated cables increase the price, with some specialized outdoor or direct-burial cables reaching \$5 per foot. Pre-assembled trunk cables with LC or SC connectors can simplify installation and reduce splicing labor.

Installation Costs Installation costs vary based on route complexity, terrain, and labor rates. Typical examples include:

- Basic installation: 800 ft of single-mode fiber in a residential area, minor restoration, labor 12 hours at \$90/hour, materials \$0.60/ft, conduit \$0.75/ft. Total: \$4,800–\$6,200.
- Mid-range installation: 2,000 ft mixed terrain, underground conduit, one splice closure, labor 40 hours at \$95/hour, materials \$0.80/ft, conduit \$1.20/ft. Total: \$15,000–\$22,000.
- Premium installation: 5,000 ft urban route, complex trenching, multiple splices, labor 120 hours at \$120/hour, materials \$1.50/ft, conduit \$2.00/ft. Total: \$60,000–\$110,000.

Factors affecting cost include trenching or aerial deployment, permits, splicing, testing, and restoration work. Indoor installations are generally less expensive than outdoor or urban right-of-way projects.

Summary For planning purposes, expect \$1–\$6 per foot for fiber optic trunk cable installation, with total project costs scaling with distance, fiber type, terrain, and labor complexity. Pre-assembled trunk cables can reduce labor and splicing costs, while armored or high-strand-count cables increase material expenses. For precise budgeting, it is recommended to obtain a site-specific quote from a licensed fiber optic installer.
