

Price of a 6-meter trapezoidal cable tray

AI Overview

The price of a 6-inch trapezoidal cable tray varies depending on material, surface treatment, and order quantity, typically ranging from \$15 to \$50 per meter, with exact quotes provided by suppliers.

Factors Affecting Price

- Material:** Steel (galvanized, hot-dip galvanized), stainless steel, or aluminum. Hot-dip galvanized trays are more expensive due to corrosion resistance and durability.
- Surface Treatment:** Options include electro-galvanized, hot-dip zinc alloy, or powder coating. Each treatment affects cost and longevity.
- Load Capacity and Thickness:** Heavier-duty trays with higher load ratings or thicker metal sheets cost more.
- Length and Quantity:** Bulk orders reduce per-meter cost, while small orders or custom lengths may increase it.
- Accessories:** Covers, locking mechanisms, and connecting bolts may be included or sold separately, affecting the total price.

Supplier Guidance

Grainger offers 6-inch cable ladder trays with aluminum construction suitable for overhead or underfloor installations, but prices are available upon request.

Chinese manufacturers like Jiangsu Holdee Electric Co., Ltd. and Alibaba suppliers provide customizable trapezoidal cable trays with free sample options, but formal quotations require specifying size, material, and quantity.

European suppliers can be contacted via B2B marketplaces like Europages for Israeli or German-made trays, with prices provided directly by the supplier.

Recommendation

To get an accurate price for a 6-inch trapezoidal cable tray:

- Specify material, surface treatment, and length.
- Determine required load capacity.
- Contact suppliers directly for a formal quotation, as prices vary with customization and shipping.

This approach ensures you receive a precise cost tailored to your project requirements.
