

Price of cable tray climbing elbow

AI Overview

Cable Tray Climbing Curved Elbows typically range from \$30 to \$150 per piece, depending on material, size, and manufacturer. Overview Cable tray climbing curved elbows are specialized fittings that allow cable trays to change direction vertically or horizontally while maintaining proper cable support. They are commonly used in industrial, commercial, and construction applications to route heavy-duty power or data cables efficiently. Factors Affecting Price Material: Pre-galvanized steel: Durable and corrosion-resistant, suitable for heavy-duty applications, generally priced in the mid-range (\$50-\$120) per elbow. Stainless steel (SS304/SS316): Higher corrosion resistance, often used in washdown or outdoor environments, typically more expensive (\$100-\$150) per elbow. Aluminum or fiberglass: Lightweight and non-conductive, prices vary depending on size and load capacity (\$60-\$130). Size and Dimensions: Width, side height, and bend radius directly influence cost. Larger elbows supporting wider trays or higher cable loads are more expensive. Type of Bend: Horizontal vs. vertical: Vertical climbing elbows may cost slightly more due to additional structural requirements. Inside vs. outside bend: Outside flange (OF) elbows often provide better ventilation and support but can be priced higher. Load Capacity and Standards Compliance: Elbows designed for heavy-duty power cables or compliant with standards like DIN EN 61537, cULus, or IEC may carry a premium. Supplier Examples BAHRA Company offers pre-galvanized steel 90° ladder cable tray elbows with outside flanges, suitable for heavy-duty applications, typically priced competitively in the \$50-\$100 range depending on size. Platt Electric Supply lists various ladder rack curved sections and stainless steel elbows, with prices generally starting around \$80 for smaller sizes and increasing for larger or specialized fittings. Alibaba and other industrial suppliers provide bulk or custom options, where pricing can vary widely based on material, quantity, and shipping. Recommendation For acc...
