

Price of concealed electrical boxes in Bulgaria

AI Overview

Concealed electrical boxes in Bulgaria typically range from around €1.30 to €16.25 per unit, depending on size, material, and supplier. Price Range and Examples Plastic concealed boxes for standard installation (e.g., 120 x 100 x 50 mm) are available from suppliers like Masterhaus, though specific prices are not always listed online. Aluminum installation boxes are priced between €6.93 and €19.50 per unit, depending on size and specifications. General junction boxes and consoles can be found at lower prices, starting from €0.19 up to €5.86, suitable for smaller or simpler installations. High-quality stainless steel or mild steel boxes with IP65 protection are available at E-abel, often with promotional discounts of up to 50%, which can significantly reduce the cost for premium enclosures.

Factors Affecting Price

Material: Plastic boxes are generally cheaper, while aluminum or stainless steel boxes are more expensive due to durability and protection ratings.

Size: Larger boxes or those designed for multiple connections cost more.

Protection Rating: Boxes with higher IP ratings (e.g., IP65) for dust and water resistance are priced higher.

Supplier and Promotions: Prices vary between distributors, and mid-year sales or bulk orders can reduce costs.

Where to Buy

Masterhaus Bulgaria offers concealed plastic boxes suitable for wall installation. Filkab B2B provides aluminum installation boxes with a range of sizes and prices. E-abel stocks stainless steel and mild steel boxes with IP65 certification, often with discounts. Toplivo.bg lists a variety of junction boxes and consoles at competitive prices. For a typical residential or commercial project, expect to pay between €2 and €20 per concealed electrical box, depending on the material, size, and protection level required.
