

Price of patch panel connectors

AI Overview

Patch panel connectors typically range from \$20 to over \$200 depending on type, size, and fiber or copper specifications. General Price Ranges Copper patch panels (e.g., 12–48 ports, Cat5e/Cat6) usually cost \$20–\$100 per unit depending on the number of ports and brand. Fiber patch panels (e.g., 12–48 LC/SC connectors, OM3/OM4 multimode) generally range from \$50–\$200 for 1U rack-mountable units. Modular or high-density panels with specialized connectors may exceed \$200, especially for enterprise-grade or pre-terminated fiber solutions. Factors Affecting Price Number of ports: More ports increase cost. Connector type: LC, SC, ST, or RJ45 connectors have different pricing. Material and build quality: Metal chassis and high-quality components cost more. Fiber type: OM3/OM4 multimode or single-mode fiber panels are more expensive than standard copper panels. Brand and supplier: Prices vary between distributors like Mouser, Amazon, MediaMarkt, and RLH Industries. Where to Buy Mouser Electronics: Offers a wide selection of patch panel connectors with datasheets and inventory details. Amazon: Provides ready-to-install fiber and copper patch panels with customer reviews and competitive pricing. RLH Industries: Specializes in fiber patch panels; contact them for custom pricing. OEMSecrets: Allows comparison of multiple distributors' prices and stock availability in real time. MediaMarkt (Germany): Offers patch panels for home and office networks, including installation accessories. For precise pricing, it is recommended to check the supplier's website or request a quote, especially for bulk orders or specialized fiber panels.
