

Sample Price of Optical Cable Line

AI Overview

Fiber optic cable prices typically range from \$0.09 to \$6 per foot, depending on type, fiber count, and installation requirements.

Price Overview

Basic FTTH drop cable (1-core): Around \$0.13 per foot for retail purchases, suitable for single connections in homes or small offices.

Standard single-mode fiber: Approximately \$0.10 to \$0.50 per foot, depending on strand count and quality.

Multimode fiber: Typically \$0.30 to \$1.00 per foot, with higher strand counts increasing the cost proportionally (e.g., 12-strand $\approx$ \$0.50/ft, 24-strand $\approx$ \$1.00/ft).

High-capacity backbone cables (e.g., 288-strand): Can reach \$6 per foot or more, often used for enterprise or data center backbones.

Armored or outdoor-rated cables: Range from \$0.50 to \$5 per foot, designed for harsh environments or direct burial.

Wholesale bulk purchases: Prices can drop to \$0.09–\$1.52 per foot, depending on volume and supplier.

Factors Affecting Cost

Fiber Type: Single-mode fibers are cheaper per foot than multimode but require more expensive equipment for installation.

Cable Construction: Indoor riser-rated cables cost less than plenum-rated or armored cables; outdoor cables with UV-resistant jackets are more expensive.

Installation Complexity: Underground or long-distance runs increase total project costs due to trenching, splicing, and labor.

Connector and Pre-Termination: Pre-terminated cables cost more upfront but reduce field labor significantly, sometimes saving up to 70% on installation costs.

Volume and Lead Time: Bulk orders and direct factory purchases reduce per-unit costs, while custom or niche specifications increase prices.

Example Project Costs

Indoor 1,000 ft single-mode run: Cable \$0.40/ft, labor \$1.00/ft, total $\approx$ \$2,650–\$3,100.

Outdoor 2,000 ft run with conduit and 4 terminations: Cable \$0.70/ft, labor \$1.60/ft, total $\approx$ \$4,940–\$6,120.

Premium 5,000 ft outdoor armored cable with multiple splices: Cable \$1.00/ft, labor \$3.00/ft, total $\approx$ \$11,000–\$14,500.

These figures provide a practical reference for budgeting fiber optic cable projects, but actual costs may vary based...
