

Second Bridge Mounting

AI Overview

Second bridge mounting allows you to combine two night vision or thermal devices into a single, adjustable binocular or dual-device system for enhanced operational versatility. Overview A second bridge mount is designed to connect two monocular devices, such as PVS-14 or RVM-14 units, into a single binocular setup or dual-device configuration. This setup improves depth perception, situational awareness, and operational flexibility in low-light or nighttime conditions. Dual bridge mounts are particularly useful for tactical, surveillance, or professional applications where both night vision and thermal imaging are required simultaneously. Key

Features Interpupillary Distance (IPD) Adjustment: Most dual bridge mounts allow precise IPD adjustment to align the devices with the operator's eyes, ensuring comfort and optical centering. Articulating Arms: Devices can be swung laterally or vertically out of the line of sight without disturbing alignment, allowing rapid transition between single and dual-device use. Modular Design: Systems like the

Armasight RAYVN Rail or TRYBE Optics dual bridge allow pods or monoculars to be repositioned or expanded without tools, accommodating different device combinations. Quick-Detach Capability: Some mounts, such as the Falconclaw QDB, use a quick-detach interface to transfer devices between helmet, rifle, or handheld setups in seconds. Compatibility: Certain bridges are proprietary (e.g., AB Night

Vision RVM-14 bridge) and only work with specific monocular models, while others support multiple devices including thermal and night vision units. Popular

Systems TRYBE Optics PVS-14 Dual Bridge: Converts two PVS-14 monoculars into a single binocular system with adjustable IPD and swing-away functionality. Armasight RAYVN Modular Bridge: Offers a fully articulating rail system with pod-on-rail design for flexible positioning of night vision or thermal devices. Falconclaw QDB: Dual-mount system for NV + NV, thermal + NV, or thermal + thermal setups with quick-d...
