

South African power distribution box manufacturer

Overview

Brands like York, Okari, Enlec, Utilec ©, PSO1 and PSO2 are well known in the South African market and are all solely manufactured by Allbro in South Africa. Local manufacture to international standards means that products are suited to the rigors of an extremely tough local. Allbro supplies key components that are used in almost every locally made transformer. With the acquisition of ABB's South African enclosure business (York) in 2011, Allbro also became a leading supplier of non-metallic enclosures to the industrial, commercial and residential contracting trades. CED (Consolidated Electrical Distributor) is a leading distributor dedicated to importing and distributing high-quality, low-voltage electrical switchgear and motor-control brands. Our extensive knowledge and specialization revolve around serving clients in South Africa's low-voltage sector. These range from smaller wall-mount enclosures to larger floor-standing panels and multi-tiered MCCs (Motor Control Centers). We specialize in the design, manufacturing, and commissioning of full-system. All our drawings and schematics are produced using CAD Switchboard Group designs, manufactures, and installs Electrical Boards across Southern Africa and abroad.
