

Syrian Optical Cable Embedded Pipe Processing Manufacturer

AI Overview

Key Syrian manufacturers for optical cable embedded pipes include Syria Cables, OSC, and Mahfouz Group, offering both products and installation services. Syria Cables Founded in 1991, Syria Cables is one of the leading cable manufacturers in Syria, producing high-quality electrical and fiber optic cables suitable for industrial, residential, and commercial projects. While primarily focused on copper and aluminum cables, the company also supports infrastructure projects that require fiber optic solutions, making it a potential supplier for embedded optical cable systems . They emphasize engineering excellence, quality standards, and long-term reliability. OSC (Optical Systems Company) OSC specializes in fiber optic network projects and is the only company in Syria executing fiber cable projects using fusion splicing techniques. They provide a full range of services including supply, installation, and processing of optical cables, as well as embedded conduit systems for LAN, WAN, and GPON networks. OSC has experience linking university campuses and large-scale institutional projects, making them a strong candidate for optical cable embedded pipe installations . Mahfouz Group Mahfouz Group, established in 1991, operates in Syria and across the Middle East. They collaborate with international partners like Xinxing Ductile Iron Pipes to supply high-quality pipes suitable for optical cable embedding. Their services include technical consultancy, project management, and supply of embedded pipe systems for telecommunications infrastructure. Mahfouz Group's extensive network and partnerships make them a reliable option for large-scale projects requiring optical cable conduits . Summary For projects requiring optical cable embedded pipes in Syria, the following companies are notable: Syria Cables: Cable manufacturing and infrastructure support OSC: Fiber op...
