

## Telecom Fiber Direct Connection Router

### Overview

Many major ISPs, such as Verizon and Xfinity, offer fiber connections directly to your door, known as FttP or Fiber to the Property. That said, there are a ton of options out there from different manufacturers, such as Netgear, ASUS, TP-Link, and more. To connect your fiber optic cable to a router, ensure you have the following: Fiber optic modem (ONT): Most fiber connections require an Optical Network Terminal (ONT), provided by your ISP. Compatible router: Verify that your router supports fiber optic input (look for an SFP or WAN port labeled). Once the engineer has found a way to bring the Fibre Optics cable into your property, a small "PTRO" is installed and screwed to the wall. A short Fibre cable will be connected from the PTRO to the rest of the equipment. After, I need information on what settings I need to configure on my router to access Internet via fiber optic modem. As far as I understand, I need a PPPoE username and password to connect. The ClimatePartner certified product label confirms that a product meets the requirements for the five steps in climate action including calculating carbon footprints, setting reduction targets, implementing reductions, financing climate projects and communicating transparently to continuously.
