

The distribution box has been moved to the opposite side

Overview

Verify Autodiscover settings (how Outlook locates the server). Check the firewall or proxy rules that might block traffic. Confirm whether any server-side maintenance or updates are in progress. I had asked a carrier I saw down the road about 2 miles if we could move our mailbox to the other side of the road because about that far had mailboxes on that side. This article applies to the operating systems listed. If your operating system is not shown, it may be because it is not supported or because support information is not yet. Did you have the issue when you moved your mailbox or folders?

Is your device client or mobile?

Is your account personal or school/work?

Based on past experience, it looks like your mailbox is being migrated or moved to a different server location, which could be the reason why you can't access it. Hi, I need to move my meter box to the opposite side of a stud wall, approximately 6". " Now you're stuck choosing between a "Temporary Mailbox" you know is empty, or "Work Offline" and miss out on new mail. Frustrating, right?

Don't panic—99% of the time, this. This video covers the installation of a 60K BTU/hr outdoor unit and the associated branch distribution box.
