

What are the manufacturers of fiber optic cables in Angola

AI Overview

Angola Cables is the primary Angolan company involved in fiber optic cable operations, including submarine and domestic networks, though local manufacturing of fiber optic cables is limited. Angola Cables Overview Angola Cables is a multinational telecommunications operator based in Luanda, Angola, formed in 2009 by major Angolan telecom companies including Angola Telecom, Unitel, MStelcom, Movitel, and Mundo Startel . The company specializes in the operation and commercialization of submarine fiber optic cables such as the South Atlantic Cable System (SACS), MONET, and WACS, providing international transmission capacity and connectivity to Africa, South America, Europe, and the United States . Angola Cables also manages domestic fiber networks like the Angola Domestic Network System (ADONES), linking eight coastal cities over 1,800 kilometers of fiber-optic cable .

Fiber Optic Infrastructure in Angola Angola has invested strategically in fiber optic infrastructure to improve connectivity both internally and internationally . Key projects include:

- Submarine cables:** SACS, MONET, WACS, and SAT-3/WASC connecting Angola to Europe, South America, and Asia .
- Domestic networks:** ADONES links major coastal cities, while future projects like SAex and ACE aim to expand coverage .
- Data centers and IXPs:** Angola Cables operates AngoNAP in Brazil and IXP Angonix in Luanda, supporting high-capacity data transmission .

Local Manufacturing Currently, there is no widely reported local manufacturer of fiber optic cables in Angola. Most fiber optic cables are imported and deployed by operators like Angola Cables and Angola Telecom. The focus in Angola has been on network deployment and connectivity services rather than domestic cable production . Companies interested in fiber optic projects typically partner with international cabl...
